## Houseboats

Kerala has a vast network of waterways, and rice boats were earlier used to transport goods. With the advent of modern transportation these went into disuse. The concept of converting these into houseboats then caught on and today it has emerged as an unique product of Kerala. It provides an opportunity to stay and explore the vast lakes and backwaters and experience life of the local people on the shores. Our houseboats offer modern amenities with food cooked and served on board.
