

Experience The Art Of
Quaint Living

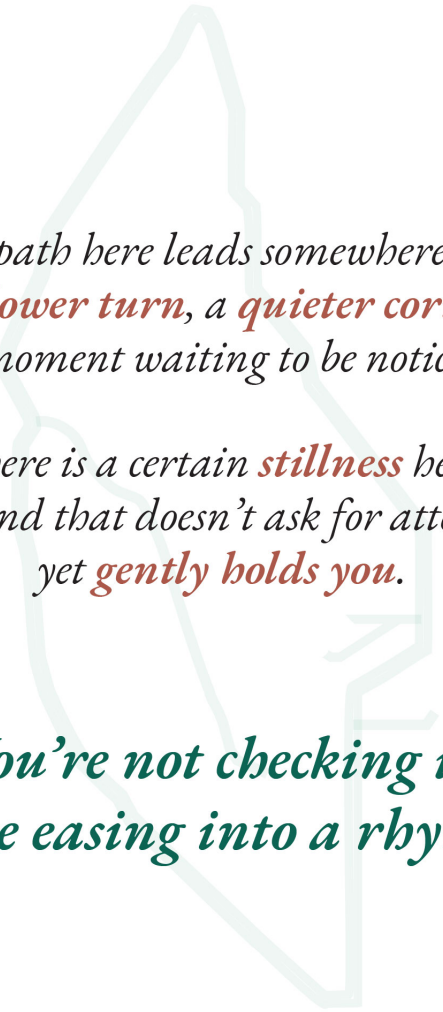

Karma Chalets

— A BOUTIQUE HOTEL —

An aerial photograph of a garden patio. Two women are seated at a round, dark wooden table in the center. The woman on the left wears a red and white striped dress, while the woman on the right wears a patterned short-sleeved shirt and blue jeans. They are surrounded by four wicker chairs. The patio is paved with light-colored, irregular stone tiles. To the left, there are large potted plants with white and pink flowers. To the right, more potted plants with white and purple flowers are visible. In the background, a white picket fence and a wooden trellis structure are partially seen. The overall atmosphere is peaceful and serene.

Morning light,
towering greens and
uninterrupted calm

*Every path here leads somewhere softer.
A **slower turn**, a **quieter corner**,
a moment waiting to be noticed.*

*There is a certain **stillness** here.
The kind that doesn't ask for attention,
yet **gently holds you**.*

***'You're not checking in.
You're easing into a rhythm.'***

At Under the Neem, *dining is never hurried*

The ambience is one that exudes warmth and comfort,
making us the best dine-out place in Gurgaon.

The variety of seating options varies from alfresco dining, indoor sofas, train-like cosy booths and a private dining room. Being wrapped in the nature's lap at 'Vines & Dine' to the more premium 'Cupid's Corner', we have curated dining experiences catering to the changing seasons, moods and all the age groups!

Under the Neem offers books to read, carrom to play, cappuccinos to sip, a vegetable garden to tour around, a 'live' chess to keep the mind alert and a knitting basket to occupy yourself with while relaxing and soaking in the surroundings.
