

THE BRIDGE  
BISTRO BAR

*The banks of the Ganges in old Calcutta are a place where the influence of a multitude of cultures & cuisines stepped into India, bringing in untold diversity from the Portuguese, Chinese, Dutch, French and uncountable more from around the world to the docks of Calcutta. Even when they left, the flavours & techniques remained. The boat holds stories of a time when the river was the essence of our city, the catch of the day was the most important part of our plates & the fishermen found treasured culinary ingredients in the Bay. All of these blend together to release the flavours of erstwhile Calcutta & the host of cuisines that made their way here through the river, and through time to Polo Floatel!*
