

EVOLVE BACK RESORT BY EARTHITECTS

Nature reigns supreme at this exquisite abode, which remains concealed, like any good secret, within Coorg's coffee-scented hills. Helmed by Earthitects, it houses Kodagu-style villas, cottages and duplex suites, with each one emanating an essence of raw grandeur. Here, simply follow the meandering stone pathways and lily ponds to bask in the glory of barefoot luxury, seen above in the thatched roofs and below with durable red oxide flooring, ideal for foggy Coorgi winters. Dining turns decadent amid treetops at the candlelit "Machan", while the aroma of Arabica beckons at the Sidapur Coffee Museum adorned with rope-hoisted shelving and sustainable eucalyptus pole lighting. Evidently, Evolve Back is nature-forward, allowing the contours of the lush landscape to lead the way. Pure alchemy.
